Aspiring Software Engineer based in Jakarta with hands-on experience in full-stack development using Laravel and React.js. Skilled in applying SDLC and Agile practices to build scalable, user-focused applications. A collaborative problem-solver with strong communication skills and a passion for continuous learning.

Highlighted Skills

Technical Skills	: Laravel, React, HTML, CSS, SQL, JavaScript, Java, Python, C, C#, .Net, Git, Tailwind, PHP, Figma, Github, Eclipse, VScode
Soft Skills	: Agile, Leadership, Collaboration, Teamwork, Communication, Adaptability, Mentorship, Analytical Thinking, Problem-Solving

Education

Bina Nusantara University – DKI Jakarta, Jakarta Barat	(August 2023 – Present)
- Bachelor of Computer Science, 3.42/4.00 - Relevant Coursework : Software Engineer, Agile Software Development, Code Reengineering, Pattern Software Design	

Organization & Other Experiences

Beelingua Mentor – Jakarta Binus University	(April 2025 – Present)
- Selected as 1 of 50 mentors from hundreds of applicants for the Beelingua mentorship program. - Guided 50–60 peers on their Beelingua learning journey through one-on-one tutoring and group discussions.	

Liaison Officer – Jakarta BIFest Beelingua Olympiad 2025	(October 2025 – Present)
Coordinated participants and staff to ensure smooth event operations. Guided debaters to their rooms, managed scheduling, and supported documentation flow during competition.	

Project Support – Jakarta Do Well Do Good Future Leaders - BINUS Chapter	(May 2025 – August 2025)
- Researched marketing challenges for LindungiHutan using an Issue Tree framework and co-developed strategies with clients. - Created a strategic timeline and roadmap, strengthening expertise in consulting, digital marketing analysis, and collaborative problem solving	

Staff of Media Partner BTT 1 – Jakarta Bina Nusantara Computer Club	(December 2023 – January 2024)
Secured 17 strategic partnerships by identifying potential collaborators, reaching out to stakeholders, and negotiating agreements that supported the event’s visibility and impact.	

Activist – Jakarta Bina Nusantara Computer Club	(November 2023 – September 2024)
- Completed Front-end & Back-End Development coursework within BNCC tech divisions. - Executed a website development project applying Laravel skills learned in coursework.	

Projects

Web-Based Waste Collection Platform - GreenLoop Laravel PHP, React.js	(April 2025 – June 2025)
Project Manager & Full-Stack Developer	
Full-stack development using Laravel (PHP) and React.js, implementing features like the order system, activities page, and homepage components. - Led project management (Agile, daily scrums) for a waste exchange web platform built for a Software Engineering course.	

Smart Traffic Management System - STMS YOLOv5, Python	(December 2024 – February 2025)
Tech Lead	
- Developed a vehicle detection model using YOLOv5 and Python to dynamically prioritize traffic signal timing, successfully reducing simulated congestion. - Served as Tech Lead & AI Developer, designing and implementing an AI-driven traffic optimization system for an AI course project.	

Marketplace Platform - ThriftCorner Laravel PHP, Tailwind CSS	(September 2025 – October 2025)
Full-Stack	
- Built core features for a Laravel & Tailwind CSS student marketplace, including secure user authentication and the news portal. - Contributed to overall project success through involvement in UI/UX design, frontend implementation, and backend development.	

Achievements

The 10th International Conference on Computer Science and Computational Intelligence 2025	(July 2025 – August 2025)
Author & Presenter of paper “Bridging the Gap: A Comparative Evaluation of Agile, Waterfall, and Hybrid Methodologies in Modern Software Project” at the 10th International Conference on Computer Science and Computational Intelligence (ICCSCI 2025)	

Finalist - UI/UX Competition Business and System Innovation Challenge (BASIC) 2024	(January 2024)
Led Team “Joy” in the UI/UX Competition (Business and System Innovation Challenge 2024), managing collaboration and overseeing design and user flow to deliver a user-centered, creative, and functional solution.
